Dear Gail and Todd:

The 2021 IT and DCAT budgets remain largely unchanged. This year, the pandemic, has put additional strain on both staff and our ability to provide services. The IT budget reflects this phenomena with increases targeted toward cloud-based services that empower both remote and on-site work seamlessly. The DCAT budget, in turn, reflects new equipment and processes that need to be managed with existing minimal staff.

Highlights this year include:

- The addition of ZOOM video conferencing
- Moving from co-terminating to per-device licenses on Meraki equipment
- Upgrades to audio capabilities at the Town Hall
- Additional licenses for the Microsoft Office365 platform

This year's slight budget increase represents a small contraction in service levels. As in years past, the current budget does not address other larger initiatives such as document management, information security, training, etc. I continue to hope more consideration can be given to these goals in coming years, as funding allows.

I know IT/DCAT is considered fundamental to the success of the Town. Key to our success is the continual support of the department through the yearly operating budget and capital improvement plan. I thank you for your consideration.

Sincerely,

Narrative for Column # 5								
Maintenance costs paid to individual software and hardware vendors. These costs are determined by the vendor independently and often tied to maintenance agreements. Paying for maintenance ensures upgrades, replacement, and patches of core business software. New items this year include Zoom at \$2000 and PeopleGIS at \$9000 however we are seeing increases across the board. ESRI support (\$6200) was dropped as we await a new GIS position.								
Narrative for Column # 6								
Funds removed for the PeopleGIS software maintenance.
