Main Trail (RED)

The main trail runs 0.7 miles from the parking lot to the shore of the National Wild & Scenic Lamprey River. The Doe Farm has nearly 2 miles of frontage along this important river that flows into Great Bay.

The main trail passes the historic Doe homestead cellar hole and burial ground and leads to other trails worthy of exploration on foot, bike, ski, or snowshoe.

LaRoche Farm

LaRoche Loop Trail (WHITE)

This 0.8-mile round trip trail from the kiosk crosses an historic stone culvert and several foot bridges and passes through an upland oak, hickory, and pine forest and onto the LaRoche Farm.

Scouts have camped at a site here for more than 40 years, helping with trail stewardship as part of their stay.

Upper Loop Trail (YELLOW)

This 0.3-mile trail provides a beautiful view of the Lamprey River oxbow around Moat Island. Tall pines, native shrubs, and the long stretch of river offer a great place to observe wildlife.

West Loop Trail (BLUE)

A 0.4-mile trail that passes through stands of red pine, white pine, and Norway spruce that were planted by Scouts in the 1920s.

Lower Loop Trail (RED)

A 0.25-mile trail that winds along the main stem of the Lamprey River and the former river channel (an oxbow) that surrounds Moat Island.

Moat Island Trail (GREEN)

A 0.7-mile loop trail that winds through a silver maple floodplain forest and into a hardwood forest of red, white and black oaks and shagbark hickory. Two picnic sites overlook the scenic Lamprey River. During high water Moat Island is separated from the mainland portion of Doe Farm.
