In 2017, the trail network on the Oyster River Forest and Spruce Hole Bog was improved with new bridges, signs, and trail surfaces. This was accomplished with the help of volunteers and the generous contributions of local citizens. In addition to many smaller donations, the Town of Durham received major gifts for the trail improvements from the following: Brookdale Spruce Wood, Gale and George Carey, Will and Malin Clyde, Bill and Joan Drapeau, Jason and Megan Lenk, Charlotte Ramsay, Kenny Rotner and Tracy Schroeder, Ann and Carden Welsh, Dick Wollmar, and Dwayne and Linda Wrightsman.

The 172-acre Oyster River Forest was acquired by the Town of Durham in March 2013, made possible by the generous contributions from the following partners: The Trust for Public Land, Natural Resources Conservation Service (USDA), NH DES Aquatic Resource Mitigation Fund, NH Land and Community Heritage Investment Program (LCHIP), Lamprey River Advisory Committee, Durham Conservation Commission, NH Moose Plate Program, and donations from 115 private individuals and foundations.
