No council updates....

Planning board: Just approved project at 18 Main (same project that historic committee denied). Project now goes back to the zoning board to decide. From recycling viewpoint, this project will include equal space for recycling and trash.

Public Works: For the last 2 weeks (in the transition from single stream to dual recycling,) public works has been tagging recycling that is not in line with the separated recycling schedule. Next week any single stream items will be tagged and not picked up. Phone calls to Public Works about the recycling changes have been relatively positive.

School District: School Banquet purchased disposable plastic.
