Karen,
Please include this email in the folder. At its meeting on April 23, 2014, the Planning Board determined that the proposal to change the administrative office to a bedroom did not require site plan nor conditional use review because it was a bedroom in the past, it was being appended to an existing dwelling unit and thus would not increase the number of dwelling units on site, it would not affect the parking requirements, and there did not appear to be any issues to be reviewed.

The dumpster will still be reviewed as a site plan.
