NOTICE OF APPROVAL

Address: 4 Griffiths Drive
Project Name: Nitrogen Containment Project – Change of Access
Consultant: Danna Truslow, Truslow Resource Consulting
Property Owner: Jessa Doleac
Map and Lot: Map 14, Lot 1-2
Zoning: Rural Zoning District
Date of approval: April 27, 2016

The request for a change of access to the site was approved as presented by the Durham Planning Board on April 27, 2016.

The Planning Board approved the original project as a conditional use on November 18, 2015. This approval herein is simply to change the access route. This change was reviewed in accordance with the provisions for permitted uses in the Wetland Conservation and Shoreland Protection Overlay Districts, subsections 175-60 B. and 175-71 B of the Zoning Ordinance. Thus, no notices were sent for the meeting and no public hearing was held.

The Conservation Commission reviewed and endorsed this proposed change. In accordance with an earlier letter from NHDES, no permit is required through that agency (The Subsurface Systems Bureau). According to Danna Truslow, the applicant, no NHDES permit is required for the construction as minimal rutting across a wetland for construction is allowed without a permit.
