

I am Suzy Loder of 38 Oyster River Road. I have lived in Durham 40 years. I am excited to be part of this process tonight as the potential of this project for the entire community is truly great.

I am one of the signers of the Hale letter. I support the redevelopment of the Mill Plaza. There is no rush to change anything, however, unless and until the results reflect the wishes and needs of the community. I hope you will hear many suggestions tonight and in the future to refine this project.

Time is not the issue; we can wait for the qualities we want. If the developers are serious they will work with us for a win-win result.

Thank you.
