Re: Demolition of Old Piggery Barn- Thompson Farm

Dear Mr. and Mrs. Stephen Lamb,

In cooperation with the intended lot line adjustment planned for both the 90 Bennett Road -Tax Map 14 Lot 34-1 (Lamb property), and the 86 Bennett Road Tax Map 34-0 (UNH Property), the University of New Hampshire agrees to execute with your full cooperation the following action plan.

- The electrical service currently attached to the Old Piggery Barn will be disabled and relocated to the utility pole adjacent to the structure. All electrical feeds will be secured and remain on University of New Hampshire property at the final termination point. This work will be completed prior to January 1, 2017 in preparation for the final demolition of the Old Piggery Barn.
- Once the Old Piggery Barn has been secured and made safe from all live utilities which may or may not be servicing the structure, the structure will be demolished and all demolition materials removed from the site. The demolition will commence no sooner than the full termination of all utilities, and no later than June 1, 2017. All demolition and electrical work will be completed prior to the end of UNH fiscal year ending June 30, 2017. All grading at the site will be left clean and level.

Thank you for your continued cooperation toward the removal of this structure. We look forward to improving the safety and appearance of both the Thompson Farm and your property. Please feel to contact Michael Mason of our Asset Management group at 862-0842 with questions or concerns regarding this action plan.

Regards,
