**Re: Addendum to Waiver request for Gregory Sancoff amend subdivision approval
Tax Map 11 Lot 34-1**

The reason for this request is because this was part of a pork-chop subdivision with all lots having road frontage on an existing town road. There are no new roads within the subdivision where overhead utilities would be constructed and visible from the public way. This driveway is 2000' and placing utilities underground for one house for 2000' is an excessive cost. The overhead utilities will not be visible from the public way once inside the parcel approximately 350'.
