

CITIZEN PETITION REGARDING MILL PLAZA

— Presented to the Durham Planning Board on August 25, 2021 —
(100s of names added between May 19 and August 18, 2021)

We, the undersigned residents of Durham, NH, urge the Planning Board to deny the current Mill Plaza application because it **violates our Zoning Ordinance**, which was developed by the community to adhere to State regulations and reflect our values:

- The site plan does not provide a **75-foot buffer to College Brook**, and
- The site plan would not have “a positive economic, fiscal, public safety, **environmental**, aesthetic, and **social impact** on the town,” per Conditional Use zoning.

First, **ENVIRONMENTAL**: The Conservation Commission’s legally-required advice to the Board, supported by testimony from numerous residents, argues that the plan must adhere to the 75-foot wetland buffer. This could be achieved by reducing the number of unnecessary parking spaces and slightly shifting the access road north.

The required naturally vegetated buffer would provide functions that engineered stormwater systems cannot. A 75-foot buffer could serve to reduce flooding and improve the health of College Brook, which in turn impacts the health of the Oyster River and Great Bay. The proposal would also level more than an acre of hillside woodland that could instead continue to help mitigate air pollution, reduce stormwater flow, and offset the “heat island” effect of Mill Plaza and nearby parking lots.

Second, **SOCIAL**: This application proposes a change of use by adding what are, in essence, off-campus dorms. This would also be a dramatic **change in intensity of use**. If the plan was for a different demographic of tenants, the **negative external impacts** would be significantly reduced.

The influx of student housing has dramatically altered the look, feel, and functioning of our small downtown in a single decade. Whereas, for decades social interactions through chance encounters downtown helped build social capital, these changes have driven many residents away. This project would further those negative changes, bringing hundreds of student tenants and their guests close to single-family homes in multi-story buildings that are far out of scale with the neighborhood.

Onsite property management cannot contain the **external impacts** of loud voices or music carrying across pavement well past midnight, or the disturbances of groups leaving bars, congregating outside, or roaming through family neighborhoods.

Former Durham Police Chief Dave Kurz often said that the lifestyles of students and families are fundamentally incompatible. We urge you to take that observation to heart.

Despite our criticism of this particular proposal, we are in favor of redeveloping Mill Plaza with a plan that will enhance, rather than be injurious to, our community.

COMMENTS

Citizen Petition Regarding Mill Plaza — Presented to the Durham Planning Board on August 25, 2021 —

The below represent a handful of the comments submitted by petition signers [street residence]:

1. I live in a small family neighborhood that has a few student rentals and wedged between three large party houses (18 Main, 18 Woodman and frats plus noise from Scorpions.) I feel added housing will increase foot traffic in our area as well. The amount of trash these students leave behind that ends up on my lawn is overwhelming. OFF campus housing is not subject to on campus regulations and i pity the Mill Road Faculty Road neighbors and the end of their peaceful neighborhood should this go through. I urge those in power of vote to consider if this was in your backyard... you would Vote NO. Do your townspeople right and vote to stop this unneeded housing influx. [COWELL DRIVE]
2. You'll attract more students with greater social variety and options for shopping and dining than you will with more expensive housing. [TIMBERBROOK LANE]
3. If the Mill Plaza is essentially converted to an extension of the university campus, the Town will have suffered the irrevocable loss of an opportunity to enhance our downtown for its citizenry. There must be a solution that better balances the interests of the property owner and the Durham residents, preserves our fragile environment and aesthetically enhances the Town for all in perpetuity. [MADBURY ROAD PAST EDGEWOOD]
4. I recently talked to a gentleman who owned over \$10 million worth of property in Durham, most of which was student housing. He very recently sold over 80% of those properties, knowing that a downturn in population was imminently going to cause a recession in the number of students in colleges nationwide. That is only one reason to stop the needless construction of unnecessary student housing in our beautiful town. Just saying....! [EMERSON ROAD]
5. Over 47 years I have lived in three Durham homes, participated on town boards, and envisioned what this parcel could be that would bring the community together. This plan is not it. Please find a better balance between environmental, financial and social capital. [STONE QUARRY DRIVE]
6. In my 11 years of living in Durham, I have never seen so many people opposed to a plan. Please hear us. Please count us. We have no vote and our only voices are to write letters, sign petitions, and put up signs. [WATSON ROAD]
7. not just a neighborhood issue, but a good plaza plan has been in the works for years and until one that really meets the wonderful criteria in the petition, which I strongly support, there should not be a continuation of what is currently being considered. It is making the plaza an extension of UNH and not only doesn't conform to zoning regulations, does not meet the needs of the community. It might benefit the developer at the expense of the people who make up the community. Please listen to us, who are not opposed to a good plan, but are opposed to what is now under consideration. [OYSTER RIVER ROAD]
8. Wooded path from faculty rd to plaza is lovely walk neighborhood enjoys that probably would be lost [CROGHAN LANE]
9. I work at UNH. The student housing is not even needed. [THOMPSON LANE]

10. We have plenty of student housing on and around campus. What Durham really needs is a vibrant cultural and business center that can grow the downtown economy. We need places to connect with each other, learn from each other, and build a sense of community. I am not against adding some housing -- we all know it is very difficult for both renters and buyers to find affordable places to live in and around Durham. But I am strongly against focusing efforts around adding an unnecessarily large amount of student-focused housing. It would further alienate the non-UNH community and create a larger divide, leaving Durham's economy and sense of place more fragile than ever. [NEWMARKET ROAD]
11. Regarding the wetlands barrier, please work WITH nature, rather than against it. Now is the time to do everything possible to incorporate environmentally friendly practices into every aspect of this new project. [NEWMARKET ROAD]
12. I have lived in (or near) Durham for nearly 3 decades, and have felt the character of the town change, perhaps irretrievably. I still find it a desirable place to be, but the community aspect has been permanently altered by the off-campus development of the last 10 years. (I ,for one, even miss the garish blue, green and purple colonials.) I would welcome a return to sane, community-minded planning decisions and encourage those with the power to determine Durham's future to consider those folks like me who have decided to stay in Durham to raise a family. The Durham my children will grow up in will, regardless of your decision, be different than the one from my childhood, which is natural and expected, but the trend toward off-campus student housing and development is making downtown less desirable for families. Thank you. [AMBLER WAY]
13. Fundamentally, this proposal, on top of other recently created student housing in the downtown corridor, would significantly shift the downtown Durham area to be student focused versus family focused. Going forward this will pose a problem for the Town of Durham if it wishes to continue to attract families. It is also very odd that UNH, as a land grant college with ample property for building out more student housing has not opted to do so. This is most likely because the university is aware of the declining student enrollment and is aware that further build out would not be prudent. Do we really want Durham to become a student dormitory town? Do we really want to deal with the financial hit when these massive projects are not fully occupied and the owners seek relief from taxes and other fees? Finally, do we really want to shift the responsibility for managing students away from the university and completely into the laps of the town and it's already stretched resources. We could definitely do better than this proposal and therefore it should be denied. [BAYVIEW ROAD]
14. I am a Durham resident of more than 33 years. We have more than enough student housing, some still vacant commercial space, and I do not want to live in a community whose downtown is primarily a 'campus' of private student housing that threatens to permanently destroy the small town feel of Durham. I'm also bothered by the changes to pedestrian/bike/stroller access to Main Street, both by changing the ramp to a staircase and by restricting the hours of access through Building B. There are many school children and families who use that route regularly and the proposed changes will significantly reduce their safety. This doesn't seem to satisfy the Conditional Use criteria at all. [STEVENS WAY]
15. The current plan is untenable for abutting neighbors. I support reworking the plan to focus on low to middle income condos, storefronts, and green space. In my neighborhood, no one even goes downtown any more. We have found drugstores, markets, restaurants, and post offices in other towns. [FACULTY ROAD]

16. Durham has two more chances to redeem downtown for residents: (1) The old ATO lot, and (2) Mill Road Plaza. (And maybe [3] Jenkins Court.) If these are not handled well and redeveloped in a way that doesn't contribute to the town's livability for the people who reside here, downtown will be irrevocably lost. Already the proliferation of apartments degrades downtown's appeal, and Madbury Court was an enormous missed opportunity for a nice pedestrian mall with outside gathering and eating space. Instead it is a congested road street-level storefronts consisting of an ugly computer lab, a bike storage room, an apartment building lobby, and garage bays that open onto dumpsters. We need thoughtful, future-oriented planning with citizens in mind and not reactionary development based on antiquated ideas about Durham's exceptionality. [BAGDAD ROAD]
17. The plaza should be developed in a way that is best for the owners and the community surrounding. Their profits should not come at our expense as neighbors. The excess trash picked up by campus and municipal staff from students every week is absurd, we don't need more of that than already exists in the plaza. [VALENTINE HILL ROAD]
18. The Plaza needs to be redeveloped. This plan is not a redevelopment. The citizens of Durham are not gaining anything from adding dormitories to the plaza. The Hannaford, Rite Aid, and Works Bakery are only getting facelifts at best. It is difficult now to shop at times, find a parking spot in front of Rite Aid or get a seat at the works. Any retail space added will cater to the 258 beds. Is the town ready to hand over the plaza to the students or will the Planning Board do what is right and listen to the people who live in, and love, the Town of Durham? [FACULTY ROAD]
19. not just a neighborhood issue, but a good plaza plan has been in the works for years and until one that really meets the wonderful criteria in the petition, which I strongly support, there should not be a continuation of what is currently being considered. It is making the plaza an extension of UNH and not only doesn't conform to zoning regulations, does not meet the needs of the community. It might benefit the developer at the expense of the people who make up the community. Please listen to us, who are not opposed to a good plan, but are opposed to what is now under consideration. [OYSTER RIVER ROAD]
20. If this grandfathered site is redeveloped, then it is simple common sense that the minimum wetland buffer of 75 feet is enforced. No waivers or exceptions for alternative solutions should be allowed. Given the dismal condition of College Brook, the town should be morally and ethically bound to follow the letter of the law, and not look for excuses to allow alternative solutions. In addition, I want to share that I rarely, if ever go to downtown Durham. I drove through it last night and was completely disgusted at the vulgar language I heard students screaming right on Main St near the highly touted redevelopment of the Grange site. While atheistically, these buildings might fit the character of the area, the bad behavior of the students does not. Instead I take my family and spend a lot of money dining in Newmarket. It really is disgusting how Durham continues to prostitute its downtown to the pressures of developers chasing easy money, while ignoring the long term economic impact. It doesn't take a city planner to figure out that it is the wealthy residents that have the most money to spend, duh. I love Durham, and I think generally our leaders do good work and have good intent. I truly hope and pray they do everything they legally can to protect College Brook and limit the disgusting behavior of UNH students living downtown. There are a lot of great college students, sadly the drunken immature ones spoil it for all. I seriously doubt the good quiet students will want to live in this proposed mess! [LAUREL LANE]

21. What would the economic impact of unfilled existing student apartments be to town residents who own them? Is there a need for more student housing at all? What are the risks that this housing project will struggle to rent sufficient units to be fiscally sustainable? Is there any trend data that suggests student housing demand may decline over 10 years? What are the plans for moving in and out? Trash year round? Significantly increased pedestrian traffic across Mill Road? Finally, I wonder if there would be a trade off for some of the businesses in the current location, like Hannafords, as they may have more students shopping there but fewer residents. [RYAN WAY]
22. I'm a non-drinker, non partying, graduating UNH Senior. Partying students continue to ruin it for the rest of us and this will be no different. Vehemently against the Plaza development plan! [MAGRATH ROAD]
23. Adding more housing for university students is going to kill our community. We have a small Hannaford that is struggling to keep their shelves stock. Adding more students to our community is going to kill the family and student relationship. We need more stores and places to shop. Student Enrollment has been down over the years, why would we want to invest in building more space for students when the demand is not so high? [EDGEWOOD ROAD]
24. I'm particularly concerned about the concrete parking structure and the lack of an improved grocery store in the plan. There is no shortage of student housing in Durham and, with projects like this, there will soon be a significant glut. UNH, in fact, has many empty beds. This plan is not in the best interests of the community. We need businesses to replace Bella's and Wildcat Fitness, not more student housing. [MEADER LANE]
25. I know of no resident who would deny any reasonable plan for the development of the plaza, but the one currently being promoted is designed for the benefit of the monied interests, not the people who live here and pay taxes. [SAUER TERRACE]
26. We strongly oppose the current Mill Plaza Plan. We want our town to be developed with the needs and preferences of the permanent residents of the town as a priority and not as an afterthought or "bare minimum" consideration, and with the long view of promoting and preserving the small-town, resident-friendly feel of our small New England town. This plaza will be one of the defining features of our small town, and will hugely influence the way it feels to live in Durham. We stand united behind insisting on a smart, resident-friendly plan for Mill Plaza. [BAYVIEW ROAD]
27. I have lived in Durham for over 50 years and much aware of the need to have "some separation" between the living spaces of residents and UNH. [14 STONE QUARRY DRIVE]
