Subject: parking lot off Main

1

as I have expressed elsewhere, I urge no new parking lot, no tree cutting, no residential development of the Mill Road parcel, either.

you're over populated with buildings and certainly residential structures and we are in dire need of as much of a canopy as we can possibly retain and as little disturbance of the status quo – as the conditional -use requirements insist upon. If we cannot apply the stringent conditions here, there is a little point in having any regulations with respect to zoning in this town.
