Re: Electric Car Charging Stations

I hope your review and approval of Mill Plaza looks to the future needs of shoppers. Electric car charging stations in grocery store parking areas is the latest trend. Consumers want to be able to shop while their electric car is being charged. This is going to be the future.

If you don't believe it do some research. See:

<https://www.supermarketnews.com/sustainability/giant-food-rolls-out-electric-vehicle-charging-stations>

<https://www.chargepoint.com/blog/grocery-stores-add-ev-charging-their-basket-amenities/>

<https://www.eenews.net/stories/1061491825>

Please include a charging station near Hannaford
