**Subject:** Planning Board Items

Hi Michael,

Planning Board items for you.

- **32 Cedar Point Road.** I discussed several options for erosion control @ the 32 Cedar Point Road site with Steve Riker, from Ambit Engineering and I'm familiar with this property. In my opinion the only way to approach the repair of this steep stone revetment is to utilize the Armormax Engineered Earth Armoring System. The Armormax system is specifically designed for severe erosion and severe slope stability challenges such as the slope at 32 Cedar Point Road...

Mike
