Re: Installation of new poles in WCOD and SPOD by Eversource

Dear Bill,

At its meeting on June 26, 2019 the Durham Planning Board approved the installation of 13 new poles in the Wetland Conservation Overlay District and Shoreland Protection Overlay District. The poles will be located on or alongside Durham Point Road, Longmarsh Road, and Winecellar Roads. The application was approved as submitted under the Permitted Use B. criteria in the Zoning Ordinance, including placement of poles and anchors.

In the course of the review Eversource was amenable to using new poles with a maximum length of 45 feet extending no more than 38-1/2 feet +/- above grade and cutting new poles higher than that down to 38-1/2 +/- feet. We would like to respectfully request that Eversource follow this approach for the 13 poles that are being installed under this approval.

Thank you for your cooperation in the review process.

Sincerely,

Michael Behrendt
