**Subject:** Church Hill Woods Parking Lot

To: Michael Behrendt

Dear Mr. Behrendt,

I am writing as as Durham resident regarding the above issue.

I oppose creating a parking lot. The upsetment and possible use cost to the ecosystem is ridiculous and huge. Durham has a "tree City" sign, therefore why cut down trees and create pavement for more cars. It is not the responsibility of the Town of Durham to create parking spaces for the university students. Actually, the opposite is true. We want students to walk, bike, and not bring more pollution to the area. It is against the ecological green movement entirely.

Please allow this to be our continuing mission.

Respectfully submitted,

Christine Nolan
