Subject: to the HDC re #19 Main St application

To the members of the HDC :

From : Andrea Bodo

A Boulevard defined is a large wide street that usually runs through a large city.

The Historic District on Main Street is a 2 lane road running into a small quaint downtown. It would be unfortunate to create a "boulevard" to accommodate a large commercial parking lot in the focal point of the Historic District, Red Tower.

The HDC carefully considered the two entries for #18 Main St and was unfortunately turned over by the ZBA. This application for appeal was not carefully reviewed by the ZBA and approved without carefully reviewing the video of the discussion of the HDC meeting. This overturning of the HDC decision was an unfortunate mistake.

Historically, homes built in the 1800's had one access . Today's requests for 2 driveways and boulevards is not consistent with a National Register Historic District.

Respectfully,

Andrea
