Subject: a travesty and an insult
Date: Monday, May 02, 2022 7:45:56 PM

To the Planning Board,

To destroy a relatively old growth mature forest at Church Hill to create a parking lot is an insult and a travesty in this time of our awareness of climate change, and it is antithetical to Durham's own boasting claims of environmental awareness and sensitivity. Such an action is an insult to the people of Durham and the Planning Board must put a stop to such dangerous nonsense. We need those trees, and we most assuredly do not need another parking lot.

John and Diana Carroll
