**Subject:** Parking in Durham

Good Morning Michael,

I am a Senior at UNH and have gotten wind of Peter Murphy's new parking lot proposal. Last year when looking for housing within downtown, the most major factor that came into play was parking. I ended up choosing to live at one of Peter's properties because it gave me access to parking, I was unable to find elsewhere. If I were not to live in one of his properties, the other parking options would have been out of my price range, an inconvenient walk, and most likely would not have brought a car to campus. I also have a multitude of fellow students reach out to me asking how I got parking with Peter, further expressing their difficulties securing close and affordable parking in the downtown area. Peter's lots fill long before the year begins.

I am in full support of Peter's new parking lot plan.

Best,  
Spencer Coveney
