Subject: Gerrish Development - Pesticides and Herbicides
Date: Sunday, August 22, 2021 9:15:16 PM

Dear Members of the Conservation Commission,

We are writing to ask that you recommend that no pesticides or herbicides be used in the Conservation Easement area of the proposed Gerrish development, in the wetland buffers, in the wetlands themselves, or in any other ecologically sensitive environments in this development. We know that you already understand the reasoning behind this request. If called upon, we would speak to this issue.

Sincerely,

Diana and John Carroll

P.S.: Jake - We would appreciate it if you would kindly forward this e-mail to those members of the Commission for whom we do not have e-mail addresses. Thank you.
