Subject: Tideline Project

Hello Michael,

My name is Eric Schliemann, I recently moved to 27 Schoolhouse Ln in Durham. I just recently found out about the about the development being discussed for the end of Schoolhouse Ln. Due to my work schedule I haven't been able to attend the meetings including the one this Wednesday. I just wanted to share my opinions on the projects since it will be affecting the street I live on. I first of all think it sounds like a great place to go and enjoy some food and drinks, however my main concern is the increased traffic and inevitably more people turning around in my driveway. From what i see is more people turn around in my driveway then in the designated turn around spot, with the development going in my driveway will get even more wear and tear.

Thanks,

Eric
