VII. Discussion of Town Council Goals

Please see the two enclosed documents, one a summary and the other which includes details. Town Administrator Todd Selig says "...The Council's general hope is that each of our municipal boards will take some time to review the adopted goals for 2023/24 and work to align efforts to support and move them forward.

"To that end, it would be very helpful if each board could develop 3-5 committee goals with the Council & Administrator that support initiatives outlined herein as well as plans for working to achieve them...."
