**Subject:** Solar Array at St. George's

You don't often get email from [denised1@comcast.net](mailto:denised1@comcast.net). [Learn why this is important](#)

Dear Mr. Behrendt and Members of the Historical District Committee,

I am writing to express my full support for the solar array proposed for St. George's Episcopal Church. I believe it is imperative that we as a community take advantage of opportunities to reduce greenhouse gases, and this project fits perfectly with that goal. The array would be located in the back of the property so would have little impact on the aesthetics of the Historical District. I urge the committee to approve this proposal.

Sincerely,

Denise Day
