Town Planner's Review
Wednesday, September 10, 2025

- XII. **Conservation Subdivision – Zoning Ordinance.** Continued discussion about prospective changes to Article XIX-Conservation Subdivisions.
- I recommend that the board revise its review process and: a) have the staff prepare a new draft ordinance to review, keeping in mind the discussions that the Planning Board has held so far; or b) have the staff present the numerous components of a conservation subdivision ordinance including staff guidance for each, and the board deliberate each component separately with the staff then compiling the results into a draft ordinance.
