RE: Mill Pond Dam Letter of Deficiency Issued on February 12, 2018

Dear Mr. Doyon:

This letter is to formally confirm receipt of and respond to the Mill Pond Dam Letter of Deficiency (LOD) #18-010. We are discussing the letter and identified deficiencies internally and with the Town Council, and we will keep you up to date on our collective discussions. There currently is not any funding allocated in the approved Capital Improvements Plan for work to the dam, however we plan to address Item 3 (update Operation, Maintenance, and Response Form) and 4 (a. and b. regarding tree and brush removal), in the near future.

Please call or email if you have any questions.

Very Truly,

April Talon, P.E.
Town Engineer
